This action is in response to the RCE and amendment filed 12/18/08.

***Reasons for Allowance***

1. Claims 9-44 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claim 9 is allowed for reasons set forth in the office action of 6/1/05 and claim 27 is allowed for reasons set forth in the office action of 5/29/07. The examiner notes that although Hiramoto and Katsume teach the inclusion of a p-type material positioned on the side of the light emitting material opposite to that of the light sensing material, both Hiramoto and Katsume teach that the p-type layer is used as a hole transporting layer for injecting holes from a cathode into the light emitting material. There is no motivation, however, for using such a layer adjacent to an electron-injecting anode, wherein the cathode and light sensing material are used for hole-injection into the light emitting layer.

Claims 10-26 and 43 are allowed as being properly dependent upon allowed claim 9.

Claims 28-42 and 44 are allowed as being properly dependent upon allowed claim 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David S. Blum whose telephone number is (571)-272-1687) and e-mail address is [David.blum@USPTO.gov](mailto:David.blum@USPTO.gov) .
